

Ryhme for Fay

**Down the stairs, clip clip clop clop,
Down to the ladies to put on the lippy and powder
Hearing her laugh getting louder and louder,
That always made me smile,
Then you would stop and chat for a while
Listening whenever I felt down,
I always made out I was a bit of a clown,
I put on a face and big old grin
But you could see me for who I am**

**Fay you inspired me, your laugh your positive way
We shared our troubles and fun everyday
You always have time for everyone,
Your laughter and your heart full of fun,
We kept in touch as best we can
Our friendship had only just begun.
Then I left to look after my grandson,
I missed our chats
Of clothes and stuff
Sadly we haven't seen each other enough,
Time goes by so fast
But one thing you will never be is in the past.**

**Your light your laughter will always shine
Your memory will live for a very long time.**

**With love from your friend
*Dottie***
